

Addendum #2 to SJPC-ECE090921: Questions from Potential Bidders – August 25, 2021

Q1: Do you haul bomb carts?

A1: We want to be able to haul bomb carts

Q2: Are you handling anything over 81,000 GVW?

A2: If possible, we would like the ability to exceed 81,000 GVW but do not expect to do this routinely.

Q3: What is typical/max weight?

A3: Most common typical weight would be 30,000 to 50,000 GVW.

Q4: Annual engine hours?

A4: Annual hours would be 500 to 1000 per year.

Q5: Shift Schedule that includes breaks?

A5: Shift schedule would be 0800-1200 and 1300-1700. There is a 1 hour lunch break and 15 minute coffee breaks at 10:00-10:15 and 15:00-15:15.

Q6: Max/typical lot speed?

A6: Typical speed on terminal 10-15 mph, on road max 25-40 mph.
